

Moodle + Premium Certified Partners for our ultimate level of expertise

What will you build with Moodle Workplace?

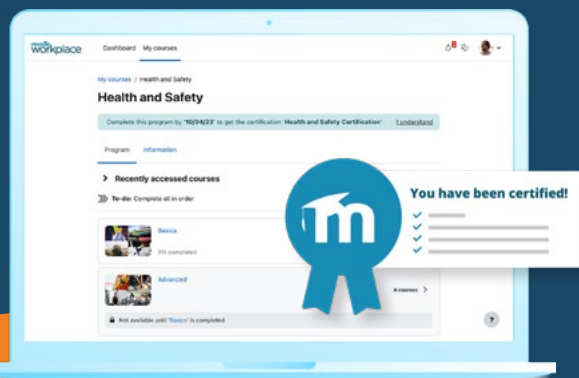

Moodle Premium Certified Partners are deeply accomplished technology experts. Moodle only awards Premium status to Partners trusted to work with enterprise-level organisations in highly regulated sectors, such as government, finance, technology, and healthcare — and the broader public sector, including higher education.

Your organisation gains full support with vigorous security features, tailored customisation, secure hosting, and ongoing maintenance for any Moodle site, whether you're opting for **Moodle LMS™** or our most advanced platform, **Moodle Workplace™**. Because this level of partnership demands exceptional expertise, we only offer Moodle Workplace through our Premium Certified Partner network.

Currently, there are over **30 Premium Certified Partners** in **23 countries**, all contributing to our unequaled collective.

Together, we create scalable, secure digital learning experiences that personalise, engage, and automate as your operations grow.

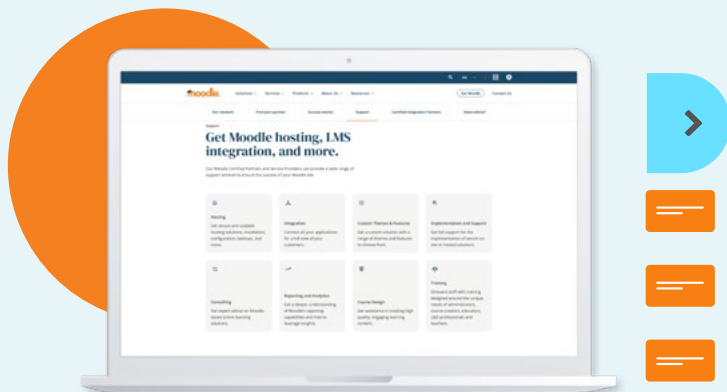

Moodle only certifies Premium Partners who

- Pass a technical evaluation to prove they can deploy and support Moodle LMS and Moodle Workplace effectively
- Maintain high standards through annual quality and compliance reviews
- Actively collaborate with Moodle and share our values of openness and improvement

What our Premium Certified Partners bring

- End-to-end service — from consultation to hosting, implementation, training, and ongoing optimisation
- Deep expertise in deploying, customising, and supporting complex learning environments, including Moodle Workplace
- Proven commitment to data security and best practices, with many Partners certified to ISO 27001 or equivalent standards
- Dedicated support channels and service agreements to keep your platform stable and aligned with your goals
- Extensive experience in advanced system design and integrations for scalable, high-performing solutions

Shape the future with Moodle

When you choose a Moodle Premium Certified Partner, you're not just investing in a service provider - you're joining a global community that's redefining what learning can be.

- Moodle Premium Partners are active contributors to the global open-source Moodle community, collaborating with educators, developers, and institutions worldwide
- They work directly with Moodle's global team of developers, designers, and product specialists — helping shape the product roadmap based on real customer needs
- Your investment supports continued development of Moodle LMS and Moodle Workplace — ensuring these platforms remain powerful, flexible, and open

Partner with us, help shape what comes next, and make learning work better for everyone.

Five reasons to choose a Moodle Premium Certified Partner

1. Exclusive access to Moodle Workplace

Premium Certified Partners are uniquely positioned to offer Moodle Workplace, our most powerful learning management system, explicitly designed for corporate and government environments. With its advanced multi-tenancy, reporting, and automations, Moodle Workplace is a gamechanger for organisations seeking transformative training, compliance, and employee development.

2. Tailored Solutions for complex needs

Whether you're running learning programs for a global workforce, a public sector agency, or a large university, Premium Certified Partners bring deep sector expertise and the ability to architect and implement sophisticated, customised Moodle solutions.

4. First access to product innovation

Because they work so closely with Moodle's core development and product teams, Premium Certified Partners are the first to implement new features, ensuring your organisation benefits from the latest innovations in edtech.

3. Scalable, secure systems

Premium Certified Partners ensure your Moodle LMS or Moodle Workplace platform is scalable to handle increasing numbers of users, while also ensuring that it adheres to the highest standards of security, compliance, and performance. **Holistic approach to services**

5. Mobile-ready learning, anywhere

When you work with a Premium Certified Partner, you receive premium access to the Moodle Workplace mobile app, enabling on-the-go and offline learning for employees across locations and devices.

The exclusivity of Moodle Workplace

Moodle Workplace is designed for organisations with multifaceted or challenging needs. Premium Certified Partners are uniquely appointed to deliver our specialised product, allowing you to:

Accelerate onboarding and ensure compliance

Automated workflows and custom reporting make it easy to onboard new employees at scale, assign required training, and maintain audit-ready compliance records.

Offer self-directed and mandatory learning in one place

The built-in Learning Catalogue allows learners to self-enrol in courses while also managing required training and certification - all within a structured, branded environment.

Manage multiple learning environments

Workplace supports multi-tenancy, enabling multiple business units or departments to have their own independent learning environments within one platform.

Personalise learning programmes to meet business goals

Build custom learning paths that adapt to each employee's role, skills, and growth goals — while easily scaling training across teams, departments, or subsidiaries. Keep your organisation aligned with strategic L&D and HR objectives at every level.

Automate workflows

Advanced automation features digitise and scale administrative tasks, freeing up valuable time for strategic learning initiatives.

Partnering with a Moodle Premium Certified Partner gives you access to the future of corporate learning - Moodle Workplace

"A longstanding partnership with [Moodle Premium Certified Partner] has paid off at GVB, the city transport operator in Amsterdam, leading to a new impetus with the introduction of Moodle Workplace for the professional training of the operational departments: Tram, Bus, Metro, and Ferries. The ability to track certifications linked to training programs, compile reports independently, set up dynamic processes, and build an organisational structure within the LMS are features that make Moodle Workplace a true all-rounder. These tools not only support but also enhance our business processes, making them more efficient and effective."

— Hub Pluijmen, Trainer and LMS Specialist at GVB.
